12. Description

This earth station license was accidentally allowed to lapse and the appropriate steps were taken to reinstate and renew the license, however during the process it appears that mis-communication and possibly a misunderstanding of the process resulted in the license expiring. Due to the importance of this antenna to the government for Space Shuttle Mission Support, Americom Government Services (AGS) will re-license the earth station. Under the authority of this STA, AGS wishes to continue the operation of its earth station until the filing and grant of FCC form 312, Application for Earth Station Authorization, are approved by The Commission for continued operation.
