Subject: RE: Extension of STA

Corrected angles:

East (a) Elevation is 56.4 degree

(b) Azimuth is 159.9 degree

West (a) Elevation is 57.0 degree

(b) Azimuth is 163.9 degree

Best Regards,

Khalid Khan

I just ran your new antenna against the autogrant check sheet, you need to make changes and email them to me before I can grant the STA. I will fax it to you in a minute.

Tnx. t.

Date: October 16, 2003

Subject: Extension of STA Application ID IB2003001947

Applicant FRN: 0001643766

Filed Oct 3, 2003

Hello Towanda:

Pursuant to our telephone conversation, this is intended to confirm our discussion concerning your decision to grant an extension of the STA for sixty (60) days. Please send the copy of the extension to the fax number given below before the close of business today. This will help me to inform our technicians. We greatly appreciate your assistance and include the following information, as you requested, to clarify the earlier typographical errors that had been contained in the initial application form;

(a) Antenna size was written as 2.3m instead of 2.4m;

(b) The model # for the antenna was corrected to 9797; and

(c) The applicant (IWL) elected to restrict the earth station to only one satellite (AMC 9).

Due to the urgency of this situation, we thank you again for your assistance. Please feel free to contact either Jill McDonald, General Counsel, at (281) 929-1190 or myself at (281) 929-1066.

The subsequent changes occurred due to the corrections are included here.

Best Regards,

Khalid Khan
