RE: Request for Special Temporary Authority  
Clarksburg, Maryland Earth Station (E000296)

Dear Ms. Dortch:

Intelsat LLC herein requests a grant of Special Temporary Authority from June 21, 2004 through August 21, 2004 to provide tracking, telemetry and command (TT&C) LEOP (launch and early orbit phase) services by the above-referenced earth station in support of the Telstar-18 satellite which is currently scheduled for launch on or about June 22, 2004. In support of its request, Intelsat LLC submits the following information:

Intelsat LLC uses this earth station to support various satellite launches. Intelsat LLC herein requests a grant of Special Temporary Authority to permit it to provide TT&C LEOP services in support of the Telstar-18 launch via the above-referenced earth station. There will be no provision of communications services, only TT&C LEOP will be provided.

The TT&C LEOP services to be provided by Intelsat LLC will be entirely consistent with its radio station license and fully compatible with the earth station's electromagnetic environment. These TT&C LEOP services will not cause harmful interference into any lawfully operating earth station. In the extremely unlikely event that such interference should occur, Intelsat LLC will take all reasonable steps to eliminate the interference.

The frequency power usage will be coordinated with all existing satellites in orbit, which use the same frequency bands, and are in the satellite's path. All other satellite operators in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

**CONDITION:**

With reference to Article 18 of the ITU Radio Regulations, the United States is not the "government of the country to which" the Telstar 18/ApstarV/Tongasat space station is subject. Operations of earth station call sign E000296 are expressly conditioned upon that space station (or those space stations) having been licensed by the government of the country to which the station is subject.

With reference to Article 18 of the ITU Radio Regulations, the United States is not the "government of the country to which" the Telstar 18/ApstarV/Tongasat space station is subject. Operations of earth station call sign KA275 are expressly conditioned upon that space station (or those space stations) having been licensed by the government of the country to which the station is subject.

A grant of Special Temporary Authority will enable Intelsat LLC to provide TT&C LEOP services that are critical to placing and maintaining the spacecraft in its proper orbit and will thereby promote the public interest.

Intelsat LLC herein certifies that it is not subject to a denial of federal benefits pursuant to the Anti-drug Abuse Act.

Respectfully submitted,  
Intelsat LLC

By /s/ Robert A. Mansbach  
Robert A. Mansbach  
Its Attorney

**FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT**

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PER, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to [jboley@fcc.gov](mailto:jboley@fcc.gov). PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember - You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

**THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.**

**Special Temporary Authority Application**  
Summary of Conventional C-band Earth Station Technical Information  
For Coordination with NTLA

Date send to OET: 4/8/2004

Applicant: Intelsat LLC

File No.: SES-STA-20040407-00519  
Call Sign: E000296

Purpose of STA: to provide TT&C LEOP (Launch and Early Orbit phase) in support of the upcoming launch of the Telstar-18 satellite

STA term: 60 days from June 21, 2004 ending August 21, 2004

Site Location: COMSAT Clarksburg Facility  
22300 COMSAT Drive  
Clarksburg, MD 20871 (Montgomery County)

Latitude: 39 ° 13' 3.3" N.  
Longitude: 077 ° 16' 13.9"W.

Transmit frequency: 5925-6425 MHz  
Receive frequency: 3700-4200 MHz  
Polarization: Circular

Antenna Size: 19 m  
Gain: Tx: 53.5 dBi 6.0 GHz  
Rx: 50.1 dBi 4.0 GHz

Maximum antenna height: 20.1 m (above ground level)  
161 m (above mean sea level)

<u>Frequency Band</u>	<u>Emissions</u>	<u>Maximum E.I.R.P.</u>	<u>Maximum E.I.R.P. Density</u>
3700-4200 MHz	800KFXD		
5925-6425 MHz	800KFXD	80.0	57.0

Satellite: Telstar-18

Satellite (W. Long.): Various (LEOP requirement)  
Elevation Angle (E/W): 5.0 degrees (minimum)  
Azimuth (E/W): 0.0/360 degrees
