Re: Application for Modification – SES-MOD-20031119-01678  
Request for Special Temporary Authority by Telenor Satellite, Inc.  
For Antenna Call WB36 to Communicate with AMOS-2 Satellite

Dear Ms. Dortch,

I am writing on behalf of Telenor Satellite, Inc. (“Telenor”), the holder of FCC license call sign WB36, to request a 60-day extension of the grant of Special Temporary Authority (“STA”) provided for in the April 13, 2004, letter from William Howden, Chief, Satellite Analysis, Satellite Division, to Bruce A. Henoch, Telenor Satellite, Inc. (“Howden Letter”). This STA grant was issued by the Commission for the purpose of preventing a disruption of service to customers pending the submission by Telenor of an amendment to its above-referenced modification application.

Telenor in the above-referenced application for modification of earth station license WB36 requested authorization from the Commission to add an antenna to this earth station license and to permit the communication by such antenna with the AMOS-2 satellite. The Commission granted this application in a March 16, 2004, Order, and then rescinded such authorization in the Howden Letter.<sup>1</sup> By this letter, we request an extension of the STA to operate this antenna in the manner granted by the Commission in the March 16 Order until July 13, 2004, or until grant by the Commission of the amended application.

Telenor requires this STA extension to continue providing service to its customers without interruption. Telenor respectfully submits that the public interest will be served by the grant of this request.
