Re: Call Sign 040105
File No. SES-STA-20040617-00841
Loral Spacecom Corporation (DIP)

Dear Mr. Edinger:

This letter is in reference to the above-captioned request for an extension of Special Temporary Authorization (STA) filed by Loral Spacecom Corporation (DIP). On September 21, 2004, Loral Spacecom amended the operating frequency in the earth station license application. However, no change in operating frequency has been filed to the pending STA request. As a result, the request for extension of the STA becomes inconsistent with the underline application and is therefore denied.

Sincerely,

Hsing Liu
Electronics Engineer
