Re: File No. SES-STA-20040923-01414

Dear Sir:

On September 23, 2004, Loral Spacecom Corporation (debtor-in-possession) ("Loral") filed the above-reference application for a special temporary authorization ("STA"). Upon review of the application, we are unable to determine with any certainty what authority is being requested. The application references potential communications with two satellites, the Hispasat 1-C and the XTAR satellite and provides conflicting data (e.g. the orbital location of the proposed point of communication).

Accordingly, the application SES-STA-20040923-01414, IS HEREBY DISMISSED as defective pursuant to 47 C.F.R. §25.112. These actions are taken pursuant to 47 C.F.R. §0.261.

Sincerely,

A handwritten signature in black ink that reads "Scott A. Kotler".

Scott Kotler
