Re: ATTACHMENT 1
Request for Extension of Special Temporary Authority for Testing
File No. SES-STA-20050203-00129
Wenzlau Engineering

Dear Sir/Madam:

On behalf of Wenzlau Engineering ("Wenzlau"), we hereby request an extension of special temporary authority ("STA") (File No. SES-STA-20050203-00129) to continue operating the 2.4 meter Ku-band temporary-fixed transmit earth station described in the FCC 312, attached as Attachment 1 to the original STA request, for testing purposes for an additional period of ninety (90) days commencing March 10, 2005. Wenzlau requires the requested STA extension so that it can continue conducting tests on the subject earth station before the U.S. Department of Defense takes delivery of the earth station for use in other countries. Grant of the instant STA extension will serve the public interest in that it will promote more efficient and effective communications by the U.S. Department of Defense. Accordingly, it is respectfully requested that Wenzlau's instant STA extension request for testing purposes be granted.

Should any questions concerning this filing arise, please contact this office.

Very truly yours,
FLETCHER, HEALD & HILDRETH, P.L.C.

/s/ Frank R. Jazzo
