Re: STA Request by SunGard NetWork Solutions Inc.
Earth Station License E950170

Dear Ms. Dortch:

Enclosed please find an original and two copies of the revised Attachment 2 to the STA request which SunGard NetWork Solutions Inc. filed with the Commission on August 4, 2005.

A third copy is enclosed to be date-stamped and returned to me.

If the staff has any questions concerning this revised attachment, I can be contacted at the above telephone number or email address.

Sincerely,

Lewis J. Paper

This Special Temporary Authorization (the "STA") is being requested in conjunction with a pending transfer of control application for a earth station license (E950170) utilized by SunGard NetWork Solutions Inc. ("SunGard"). File No. SES-T/C-200508030-1037. The transfer application, in turn, is incidental to a merger transaction which will result in a transfer of control of SunGard's parent, SunGard Data Systems, Inc., a publicly-traded company.

The merger transaction is scheduled to close on August 11, 2005. However, because of the complicated nature of the transaction and evolving decisions on the new ownership of SunGard Data Systems, Inc., the transfer application could not be filed until August 3, 2005.

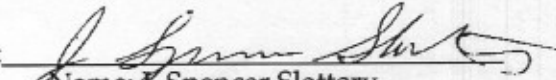

SunGard uses its earth stations and its VSAT system licenses to test disaster response measures for computers and other communications systems utilized by its customers and to implement those measures in the event the customer experiences a network disaster or other catastrophic failure. The requested STA is needed to enable SunGard (with new owners of its parent, SunGard Data Systems, Inc.) to continue to provide its customers with those critical disaster recovery services while the transfer application is pending. If this STA is not granted, innocent third parties will lose access to those critical services.

The STA is being requested for only 30 days.

SunGard acknowledges that grant of the STA will not prejudice any action the Commission may take on the underlying application seeking Commission consent to transfer of control. SunGard further acknowledges that this STA can be revoked by the Commission on its own motion without a hearing.

In view of the foregoing, a grant of this STA request would serve the public interest.

SUNGARD NETWORK SOLUTIONS INC.
