Re: Request for extension of Special Temporary Authority (STA) Kazakhstan  
File Number: SES-STA-20050815-01103 Call Sign: E980250

Dear Ms. Salas:

On August 17, 2005 Loral Skynet Network Services, Inc. (Debtor-in Possession) ("Loral") was granted authorization (SES-STA-20050815-01103) to operate its earth station in Kapolei, Hawaii (Call E980250) using conventional C-band frequencies, 5925-6425 MHz Transmit (V,H), 3700-4200 MHz Receive (V,H), to communicate with the Telstar 18/Apstar V/Tongasat satellite ("Telstar 18") at (International designation: 2004-024A) the 138° E.L. orbital location to provide communications services to Kazakhstan for a period of 30 days ending September 17, 2005.

Loral requests this STA be extended for 60 additional days, or until its request for permanent authority for the Kapolei, Hawaii earth station Call Sign E980250 to provide communications services to Kazakhstan is granted.

Grant of this request will serve the public interest by ensuring continued use of standard C-band capacity on the Telstar 18 satellite for the temporary provision of international satellite communications services to Kazakhstan.

In the extremely unlikely event that harmful interference to any lawfully operating communications station should occur, all reasonable steps will be taken to immediately eliminate the interference.

Please contact Stanley Edinger if you have any questions concerning this correspondence at:
