Scott

Per our conversation I am sending you this email to explain the reasoning behind our requesting the 2nd STA and a possible 3rd.

- o Remittance ID: 774547
- o Auth Number: 200318
- o Date Paid: 8/31/2005
- o **New STA = SES-STA 20050831-01210**
- o **Original STA = SES-STA 20050701-00861**

The original STA was for a customer we have that needed to support the Sea Launch via a site in San Diego, CA. This launch has been delayed and they decided to install the antenna and equipment and use it for testing. The new dates are for **27 Sep - 27 Oct 2005** (30 Day Window) and they will request one extension to these dates. This is the current launch window, but it may change, which is why we will resubmit for another new STA because of the launch dates keep sliding.

All of the technical specifications & parameters are the same as the original STA. The only change is the dates!

Your assistance in this matter would be very much appreciated. If you have any questions please do not hesitate in calling or emailing me your questions/concerns. We especially must advise our customer of the approval of this new STA!

Again, we appreciate your help in this matter.

Best Regards
