12. Description

IWL Communications requests a Special Temporary Authority to permit earth station operations on the East Breaks 602 (Nansen) oil platform to provide digital voice and data services to oil platform personnel. The original microwave system was damaged by hurricane Katrina, and the earth station will be a portion of the restored system. The STA is requested to allow IWL Communications to bring the earth station on-line as a portion of the restored communication system. This system will be the only means of communications for the platform.
