Dear Secretary Dortch:

On January 18, 2006, Frank Weaver, Director, Telecommunications Policy for The Boeing Company ("Boeing"), spoke by telephone with Donald Abelson, Chief of the International Bureau, regarding the above-referenced applications. Mr. Weaver requested that the Federal Communications Commission give prompt attention to the applications and grant them only with the conditions that were requested by Mobile Satellite Ventures Subsidiary LLC ("MSV") in its comments on the applications, dated December 28, 2005.

As you are aware, MSV is in the process of trying to coordinate its L-band operations with Inmarsat. MSV requested that conditions be placed on the above-referenced applications in order to minimize any interference to MSV's operations.

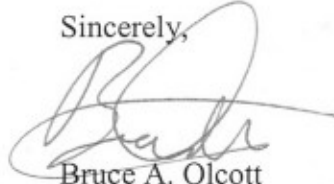

Mr. Weaver explained that, as the manufacturer of three satellites for MSV's next generation Mobile Satellite Service network, Boeing is very concerned about ensuring that MSV has access to sufficient contiguous coordinated spectrum in the L-band to provide a full range of services to consumers. The conditions requested by MSV will help to ensure that this spectrum is available.

Marlene H. Dortch

Thank you for your attention to this matter. Please let us know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Olcott", written over a horizontal line.

Bruce A. Olcott
Counsel for The Boeing Company

Cc: Donald Abelson
Chief, International Bureau
