Re: Call Sign E000723; File No SES-STA-20060202-00198

Dear Ms. Dortch:

Pursuant to Section 1.65 of the Commission's rules, 47 C.F.R. § 1.65, the undersigned, on behalf of The Boeing Company ("Boeing"), hereby updates the record of the above-referenced application ("STA Extension Application") proceeding to provide additional information.

In the STA Extension Application, Boeing indicated that if an adverse determination on the application could not be made by 12:00 pm on Friday, February 3, 2006, then it would not be possible to alter the Connexion by BoeingSM system parameters without substantial service disruption until Boeing's next scheduled software update on March 12, 2006. After the STA Extension Application was filed this morning, Boeing was able to implement a one-time change to its control software update process that makes available two additional business days to commence implementation of the changes necessary for a system power reduction. Thus, the last point at which Boeing can commence such changes is 12:00 pm EST, Tuesday, February 7, 2006, rather than tomorrow, February 3, 2006, as indicated in the STA Extension Application.

Please feel free to contact the undersigned with any questions regarding this submission.

Sincerely,

Carlos M. Nalda
Christopher R. Bjornson
Counsel for The Boeing Company
