RE: Supplement to Deere & Company application for special temporary authority to conduct receive-only testing in the L-band; IBFS File No. SES-STA-20060605-00922

Dear Ms. Dortch:

By this letter, Deere & Company ("Deere") supplements and clarifies the above-referenced application for special temporary authority ("STA") to conduct receive only testing in the L-band with the Inmarsat III F4 located at 142° west longitude.

Specifically, Deere wishes to clarify that the proposed testing will be conducted at 1535.15 MHz, a frequency in the same band that is allocated to Deere's GreenStar© system pursuant to SES-LIC-20010112-00051. In addition, please be advised that the emission designators for the proposed STA are identical to those in SES-LIC-20010112-00051. Finally, please be advised that Deere will conduct testing with no more than six (6) receive only mobile earth stations.

Enclosed are four (4) copies of this filing. Please date-stamp the enclosed extra copy of this filing and return it in the envelope provided. Please do not hesitate to contact the undersigned if you have any additional questions regarding this application for special temporary authority.

Very truly yours,

Eliot J. Greenwald
Timothy L. Bransford
