TELENOR SATELLITE, INC.

STA REQUEST FOR KA313  
(6.1 m VERTEX VSAT HUB ANTENNA)

Telenor Satellite, Inc. requests special temporary authority (STA) to allow it to continue operating a 6.1 Vertex VSAT hub antenna at its Southbury, CT Teleport. The Bureau previously granted an STA for this antenna on June 7, 2006 (SES-STA-20060524-00881). Telenor filed a permanent application for this antenna on May 24, 2006 (SES-MOD-20060524-00880). That application was dismissed on technical grounds, but Telenor refiled on August 4, 2006 (SES-MOD-20060804-01312), and that application is now on public notice. Grant of this STA will serve the public interest by allowing Telenor to continue providing service to its customers while its permanent application is pending. Accordingly, Telenor respectfully requests that an STA be granted for 60 days.
