**Request for STA – Supplementar letter to the pending
STA request SES-STA-20060914-01732**

APRITI CIELO srl is requesting a STA in order to transmit audio/video signals from Arizona to Italy for a TV program broadcasted by the italian public television (channel RAI DUE).

The decision relating to the dates and times of transmission was made exclusively by RAI.

RAI provided APRITI CIELO srl with a schedule of transmitting dates and time for the entire production. Notwithstanding the schedule, RAI requested extra uplinks for tests which were not foreseen and which APRITI CIELO were not able to decline.

RAI DUE is free to air television and the TV program is broadcast over the entire country.

The duration of the STA requested herein is 30 days.

The satellite capacity is provided by PanAmSat on Satellite PAS-3R 43°West and – by necessity – on Satellite PAS-9 58°West.

The Earth Station transmits a signal which is in the 14.0-14.5GHz band (Earth-to-Space) and receives a signal which is in the 11.7-12.2 Ghz band (Space-to-Earth). The downlink spot for the signal transmitted from Arizona is in Europe (Italy). No encryption will be used.

Should you need any further information do not hesitate to contact us.

Best regards,

APRITI CIELO s.r.l.
Paola Montanari – Sole Administrator
