MASSACHUSETTS STATE POLICE
IB2006003123; New Ku-Band VSAT Network
Request for Special Temporary Authority to Operate

NARRATIVE STATEMENT

The Massachusetts State Police ("MSP"), applicant for a new Ku-Band VSAT Network (Submission ID IB2006003123), located in Framingham, Massachusetts, hereby requests a Special Temporary Authority ("STA") in connection with the above-referenced application. MSP will use the Ku-band VSAT network to support MSP's Homeland security services and public safety activities generally. MSP request STA to begin testing the system during installation. It is anticipated that testing would commence on or about December 11, 2006. This system is considered a critical communications system for MSP. Accordingly, there is a great public interest in providing access to communications to the MSP which will be fulfilled by grant of STA. A copy of a letter from MSP is attached to this STA application in support of the STA.
