Frank,

In response to our previous telephone conversation, the subject Special Temporary Authority (STA) is requested to support our satellite systems group, which manufactures and provides satellite systems for various government and commercial agencies. We had an unanticipated requirement to support a demonstration of this 1.8 meter VSAT terminal, and did not have a regular license to support this operation. Also, since this is a temporary requirement, we do not need a long term license for the terminal, and therefore are requesting an STA. Your assistance is greatly appreciated.

Thanks,

Ron Center
