REPLY

Mobile Satellite Ventures Subsidiary LLC (“MSV”) hereby files this Reply to the Joint Response of Inmarsat Ventures Limited, Stratos Communications, Inc., BT Americas, Inc., and Telenor Satellite, Inc. (collectively “Inmarsat”) to MSV’s Comments filed regarding the above-captioned requests for renewal of Special Temporary Authority (“STA”) to operate Broadband Global Area Network (“BGAN”) terminals using an uncoordinated Inmarsat satellite, Inmarsat 4F2 at 52.75°W.¹ In its Comments, MSV urged the International Bureau (“Bureau”) to (i) adopt conditions consistent with what MSV has requested in a pending Petition for Clarification;² and (ii) establish a firm expiration date for these STAs and provide that no further extensions will be granted without Inmarsat having first completed coordination of its new satellite with the North American L band operators.³ In the event that the Bureau permits these STAs to continue without establishing a firm expiration date, the Bureau should at least (i) require the STA holders

to disclose the aggregate number of BGAN terminals that are in operation using the Inmarsat 4F2 satellite serving the United States and nearby geographic areas; and (ii) limit the BGAN terminals authorized under these STAs to those terminals that are issued to “first responders,” based on sworn affidavits provided by the STA holders supporting their claims.

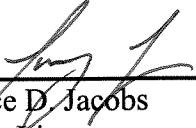

In its Response, Inmarsat incorporates by reference pleadings from previous proceedings. MSV hereby incorporates by reference its pleadings as filed in those previous proceedings.⁴

Conclusion

MSV continues to urge the Bureau to protect the existing and reliable services MSV currently provides, including to public safety users, by (i) adopting conditions consistent with what MSV has requested in its pending Petition for Clarification; and (ii) establishing a firm expiration date for these STAs and provide that no further extensions will be granted without Inmarsat having first completed coordination of its new satellite with the North American L band operators.

Respectfully submitted,
