SES-STA-20070608-00774
WIRESAT SA

Conditions:

1. Wiresat SA is limited to uplink transmissions in the 14.0-14.5 GHz band with a 9 MHz bandwidth, using a 1.8 meter antenna with a maximum power density at the input of the antenna flange of -14 dBW/4 kHz from June 13 to June 18, 2007.
2. Wiresat SA shall not cause harmful interference to any other lawfully operating satellite or radio facility and shall cease operations upon notification of such interference.
