FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to jboley@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

REQUEST FOR EXTENSION OF SPECIAL TEMPORARY AUTHORITY

Call Sign: E000166

HNS License Sub, LLC (“Hughes”) hereby requests that the Commission extend for 30 days the Special Temporary Authority, File No. SES-STA-20070724-00980 (“July STA”), it granted Hughes that allows Hughes to operate up to 1,000 1.2 meter Andrew Model 123 remote terminals through Hughes’ Germantown hub. The July STA became effective on August 1, 2007, and expires on September 1, 2007. The instant request would continue that authority for an additional 30 days, through October 1, 2007.

In its request for the July STA, Hughes described how the antennas in question are currently authorized to be operated pursuant to a license held by Spacenet Services License Sub, Inc. under Call Sign E990294, and are included as part of the VSAT network of the Sears retail chain. The antennas had been refitted to operate through Hughes VSAT network as an interim step to the ultimate inclusion of the terminals on the authorization for K Mart Corp.’s VSAT network under Call Sign E861095. The K Mart Corp. application for modification of its license remains in preparation, so an extension of the STA for an additional 30 days is required.

All terms and operating conditions of the July STA are unchanged, and the information in the request for the July STA is hereby incorporated by reference into this extension request. The requested extension of the July STA will serve the public interest by ensuring that Hughes’s customer will continue to have access to the VSAT network services that are vital to the operation of its retail business during the consolidation phase of its parent company’s communications facilities following the merger of Sears and K Mart. Again, Hughes expects that permanent authority by K Mart Corporation to operate the same terminals as part of K Mart’s own VSAT system (operation will continue on Galaxy 10R) will be sought in the very near future.

For all of the foregoing reasons, Hughes respectfully requests that the Commission extend for an additional period of 30 days – i.e., through October 1, 2007 – the STA in File No. SES-STA-20070724-00980 authorizing Hughes to include 1,000 1.2 meter diameter Andrew antennas as part of its network for operation with the Galaxy 10R satellite at 123° W.L.
