**Re: Supplement to Deere & Company application for special
temporary authority to operate receive-only mobile earth
terminals
IBFS File No. SES-STA-20070924-01310**

Dear Ms. Dortch:

By this letter, Deere & Company ("Deere") supplements and clarifies the above-referenced application for special temporary authority ("STA") to operate receive-only mobile earth terminals ("METs") from the Inmarsat IIF4 satellite located at 142 degrees west longitude.

Specifically, Deere wishes to clarify that the METs will be receiving transmissions on the L-Band frequency 1535.1525 MHz. The emission designator will be the same as the one used for Station E010011, that is 2K50D1D. Authorization is sought for up to 10,000 METs, the same METs as authorized for Station E010011.

We are filing an original and four copies of this letter. Please date-stamp the enclosed extra copy of this letter and return it in the envelope provided. Please do not hesitate to contact the undersigned if you have any additional questions regarding this application.

Very truly yours,

Eliot J. Greenwald
