Dear Mr. Kotler:

I understand that a request for a STA via paper is no longer accepted by the FCC. Please dismiss this request, since I understand that the application is already in process. I appreciate your assistance in helping me get this application resolved. Please feel free to call me with any concerns or questions.

Best Regards,
Carolyn Blasko - Financial Director

Dear Mr. Dunne,

Please note that we do not accept paper filings. However, given that the proposed earth station is a temporary-fixed earth station that complies with 25.209 and either 25.211 or 25.212 (which ever applies) operating only in 14.0-14.5 and 11.7-12.2 using ALSAT-designated satellites only and that File No. SES-LIC-20080304-00225 went on PN March 12, 2008, operations may commence pursuant to 25.151(e)(1) of the Commission's rules. Please also see the attached PN.

Hope all is well.

At your request, we can disregard the paper-filed STA request. Please advise.

Best regards,

Subject: STA Request Filed By Sure Shot Transmissions, Inc.

Dear Mr. Kotler:

On March 4th Sure Shot Transmissions, Inc. ("Sure Shot") filed an application seeking a license for a new temporary-fixed earth station. The application was accepted for filing on March 12th (E080054/SES-LIC-20080304-00225/).

On March 7th Sure Shot filed the attached Request for Special Temporary Authority seeking authority to operate the uplink with the same technical specifications set forth in the application.

I am leaving to go overseas on Tuesday, March 18th. Accordingly, I would ask that you take action with respect to the STA Request before I leave, so that I can inform my client.

In the alternative, if any action is taken with respect to this STA Request after March 17th, could you inform Ms. Carolyn Blasko at Sure Shot at cblasko@sureshotsat.com? Both Sure Shot and I would be appreciative of this consideration.

If you have any questions, please call me on March 17th at (970)385-7312, or e-mail me.

Thank you for your consideration of this matter.

Regards,

Joe Dunne
