

APPLICATION FOR EARTH STATION SPECIAL TEMPORARY AUTHORITY

APPLICANT INFORMATION Enter a description of this application to identify it on the main menu:
Renewal of STA (expires 4/19/09) to receive from Inmarsat 4F3

1. Applicant

Name:	Deere & Company	Phone Number:	310-381-2755
DBA Name:		Fax Number:	310-381-2001
Street:	20780 Madrona Ave.	E-Mail:	pwilliams@navcomtech.com
City:	Torrance	State:	CA
Country:	USA	Zipcode:	90503 -3777
Attention:	Dr. Peter Williams		

File # SES-STA-20090417-00504
Call Sign E010011 Grant Date 4/20/09
(or other identifier)
Term Dates
From 4/20/09 To: 6/18/09
Approved: Jeanette D. Spriggs

2. Contact	
Name: Eliot J. Greenwald	Phone Number: 202-373-6009
Company: Bingham McCutchen LLP	Fax Number: 202-373-6001
Street: 2020 K Street, N.W.	E-Mail: eliot.greenwald@bingham.com
City: Washington	State: DC
Country: USA	Zipcode: 20006 -1806
Attention: Eliot J. Greenwald	Relationship: Legal Counsel
(If your application is related to an application filed with the Commission, enter either the file number or the IB Submission ID of the related application. Please enter only one.)	
3. Reference File Number SESSTA2009021300180 or Submission ID	
4a. Is a fee submitted with this application?	
<input checked="" type="radio"/> If Yes, complete and attach FCC Form 159. If No, indicate reason for fee exemption (see 47 C.F.R. Section 1.1114). <input type="radio"/> Governmental Entity <input type="radio"/> Noncommercial educational licensee <input type="radio"/> Other (please explain):	
4b. Fee Classification CGB – Mobile Satellite Earth Stations	
5. Type Request	
<input checked="" type="radio"/> Use Prior to Grant <input type="radio"/> Change Station Location <input type="radio"/> Other	
6. Requested Use Prior Date 04/19/2009	
7. City/Nationwide	8. Latitude (dd mm ss.s h) 0 0 0.0

9. State	10. Longitude (dd mm ss.s h) 0 0 0.0
11. Please supply any need attachments. Attachment 1: Exhibit A Attachment 2: Exhibit B Attachment 3:	
12. Description. (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.) <div style="border: 1px solid black; padding: 5px; margin: 10px 0;">Deere & Company seeks extension of Special Temporary Authority to operate up to 10,000 receive-only, non-common carrier, mobile earth stations operating in the L-band to downlink transmissions from Inmarsat's 4F3 satellite at 97.65 degrees west longitude.</div>	
13. By checking Yes, the undersigned certifies that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application" for these purposes. <input checked="" type="radio"/> Yes <input type="radio"/> No	
14. Name of Person Signing Dr. Peter Williams	15. Title of Person Signing Director, Advanced Programs
WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

EXHIBIT A – EXTENSION OF SPECIAL TEMPORARY AUTHORITY

Deere & Company (“Deere”), pursuant to Section 25.120(a) of the Commission’s Rules, 47 C.F.R. § 25.120(a), hereby requests extension of special temporary authority (“STA”), File No. SES-STA-20090213-00180, for a period of 60 days, from April 19, 2009 to June 18, 2009, to operate receive-only, non-common carrier, mobile earth stations operating in the L-band to downlink transmissions from Inmarsat’s 4F3 geostationary satellite at 97.65° west longitude (“4F3”).¹ Specifically, Deere requests an extension of its STA for its existing network of mobile earth terminals (“METs”) operating under Call Sign E010011 receiving a 2.5 KHz downlink carrier (emission designator 2K50D1D) from the 4F3 utilizing 1,545.5450 MHz as the carrier’s center frequency. Extension of the STA is sought for up to 10,000 METs, the same METs already approved for Station E01011.

Since 2001, Deere has been equipping domestic agricultural equipment with its GreenStar™ precision farming system. The GreenStar™ system employs receive-only vehicle mounted StarFire™ mobile earth stations. These earth stations receive L-band signals from the Inmarsat IIF2 geostationary satellite at 98° west longitude (“IIF2”), and provide correctional data which enhances the information the GreenStar™ systems receives simultaneously from Global Positioning Satellites (“GPS”). This system enables the operators of domestic farming equipment to pinpoint their location to within twenty (20) centimeters ($\pm 1\sigma$). This precise positioning capability developed originally to assist farmers in comparing the crop yields from various fields to determine, among other things, the amount of fertilizer and seed appropriate for a particular field and crop, has now found additional important uses to improve farming efficiency, including enabling farmers to manually record observations such as weed patches, crop appearance, and other field variables with remarkable precision. In addition, when coupled to the vehicle steering system through the Deere AutoTrack system it aids the operator to steer a more precise path when making repeated passes over the same track, thus greatly reducing crop and soil damage.

Extension of the STA is needed because Deere’s service on the Inmarsat 2 satellite at 98.00° west longitude was switched to the 4F3 on October 22, 2008.² Grant of the extension will serve the public interest by preventing thousands of existing Deere GreenStar customers from losing service. If the customers do not receive service, the fuel efficiency of agricultural equipment enabled with StarFire terminals will decrease, and the likelihood increases substantially that the customers’ equipment will over fertilize. Pursuant to Section 25.120(b)(3) of the rules, Deere requests a 60-day extension of the STA without the need for prior public notice. On December 16, 2008, Deere filed an application for regular authority to receive service from the 4F3. File No. SES-MFS-20081216-01619.

¹ Technical information for the 4F3 is contained in the following applications filed by Intelsat North America LLC: SES-MFS-20080228-00207, SES-AFS-20080410-00448 and SES-AFS-20080915-01200.

² The uplink to the Inmarsat 2 was provided to Deere by Stratos from an earth station located in Quebec Province in Canada. After the cutover, Stratos continued to provide the same uplink services.

Deere & Company
Receive-Only Mobile Earth Station Extension of STA
Prior STA File No. SES-STA-20090213-00180
Exhibit B

EXHIBIT B- FAA COMPLIANCE

Pursuant to 47. C.F.R. §17.14 (a) and (b), FAA notification is not necessary because no remote mobile earth station will exceed 6.1 meters in height.
