Re: KVVH Industries, Inc. Request for Special Temporary Authority To Operate ESV Network
Call Sign E060335 Pending Action on Amended ESV Application

Dear Ms. Medley:

KVVH Industries, Inc. ("KVVH"), pursuant to Section 25.120(b)(3) of the Commission's Rules, 47 C.F.R. § 25.120(b)(3), hereby requests Special Temporary Authority ("STA") to operate a network of up to 300 earth stations on vessels ("ESVs") via the AMC-21 satellite at 125° W.L. and a gateway earth station in Miami, Florida (Call Sign E040267), licensed to NewCom International, Inc. STA is sought for a period of 60 days, commencing at the earliest practicable time, pending action on the concurrently filed amendment in application proceeding File Nos. SES-LIC-20060824-01502, SES-AFS-20061130-02065, SES-AMD-20070723-00976, to substitute KVVH as the applicant and make other minor adjustments to the ESV application.¹

The Commission has already granted a number of STAs to SES Americom, Inc. ("SES Americom") to operate this particular ESV network (Call Sign E060335), pending grant of an underlying application for a regular ESV license. *See* File Nos. SES-STA-20070315-00355, SES-STA-20070529-00727, SES-STA20070720-00972, SES-STA-20080110-00034, SES-STA-20080801-01009, SES-STA20080911-001193, SES-STA-20081022-01357. Grant of this STA request would allow KVVH to step into the shoes of SES Americom and assume operational responsibility for the network as part of a proposed transaction

¹ The information in the underlying ESV application proceeding is hereby incorporated by reference.

between the two companies, and grant of the associated ESV application (as amended) would afford KVH long-term operating authority.²

KVH's operation of the ESV network under the requested STA will be consistent with the technical parameters in the underlying ESV application, as amended, except that the new remote control point for the network will be at a network control facility located in Carlsbad, CA, that is operated subject to KVH's ultimate direction and control. In addition, all operations will be on the same terms and conditions as previous STAs granted to SES Americom to operate the same network. Specifically, operations will be on an unprotected, non-harmful interference basis, and will be without prejudice to the Commission's consideration of the underlying ESV application (as amended).

Grant of the requested STA will serve the public interest by ensuring continuity of service to existing ESV customers on the E060335 network, including U.S. government users. It will also ensure that affordable and reliable broadband communications will continue to be made available to a wide range of maritime customers, including federal, state and local government agencies, businesses and individuals. The Commission has previously found that grant of STAs to provide such services to be in the public interest, and it should reach the same conclusion with respect to KVH's request for an STA to provide the same services using the same network. KVH is fully qualified to hold an STA to operate this ESV network and the Commission has recently granted KVH a 60-day STA to provide the same services using a very similar ESV network in the Pacific Ocean region (Call Sign E090001). See File Nos. SES-STA-20081105-01449 and SES-STA-20090226-00221.

For all of these reasons, KVH respectfully requests the expeditious grant of this STA request. In the meantime, please feel free to contact me with any questions you may have or if KVH can provide any additional information to facilitate action on its STA request.

Respectfully submitted,

SQUIRE, SANDERS & DEMPSEY L.L.P.

Carlos M. Nalda

Carlos M. Nalda

Counsel to KVH Industries, Inc.

² The proposed transaction also contemplates that KVH will assume operational responsibility for ESV network Call Sign E070085 currently being operated by SES Americom under STA. KVH has filed a separate STA request, and SES Americom and KVH have filed an application amendment, for this purpose.
