FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD–PERM, Paperwork Reduction Project (3060–0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060–0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104–13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

Special Temporary Authority (STA) is hereby requested to permit temporary operation of Earth Station E040464, licensed to NBC Telemundo License Co. (NBC Telemundo), on frequency 5965.0 MHz for antenna alignment purposes related to the movement of out-of-control satellite Galaxy 15. The NBC Telemundo earth station is used to provide cable television programming to multichannel video programming distributors (MVPDs). Although Galaxy 15 has now moved out of AMC-11's orbital box without incident, the STA is needed while SES-1 and AMC-11 are moved into their authorized orbital positions and the affected uplinks are moved from SES-1 back to AMC-11. The STA is requested to be effective June 7, 2010, for a period not to exceed ten days, as per discussion between Kathryn Medley, FCC, and Doug Lung, NBC Telemundo. The Frequency Coordination and Interference Analysis Report prepared by Comsearch, which is submitted as Attachment 1, demonstrates that the earth station will operate satisfactorily with the common carrier microwave environment and that there are no unresolved interference cases involving the subject earth station. Accordingly, grant of the STA will serve the public service by ensuring uninterrupted feeds of television programming to MVPDs and their subscribers.
