

REQUEST FOR EXTENSION OF SPECIAL TEMPORARY AUTHORITY

Clark County School District (“CCSD”), the licensee of fixed transmit-receive earth station E920225, hereby respectfully requests an extension of its special temporary authority, pursuant to Section 25.120 of the Commission’s Rules, for a period of thirty (30) additional days, or until July 26, 2010, to continue to operate earth station E920225 at the parameters of its pending modification application. CCSD’s current STA was granted on May 24, 2010 and expires on June 26, 2010.

The STA extension is necessary because the application for the modification of the E9202254 license (File No. SES-MOD-20100520-00630) remains pending. The Commission issued a Public Notice of acceptance of the application on May 26, 2010 (Report No. SES-01247). As discussed in its original STA request, KLVX(TV), Las Vegas, Nevada recently relocated its main studio and the E920225 facility is essential to the operation of the television station.

Accordingly, grant of this extension request will serve the public interest by ensuring that important programming and news coverage can continue to be delivered to the viewing public without interruption.
