**FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT**

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

**THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.**

**Description**

MTN License Corp. (“MTN”), pursuant to Section 25.120(b)(3) of the Commission’s rules, 47 C.F.R. § 25.120(b)(3), hereby requests a 60-day extension of its existing Special Temporary Authority (“STA”) to operate remote earth stations licensed under its C-band ESV authorization (Call Sign E050281) at a single fixed location in Petaluma, California. *See* SES-STA-20091119-01480. The existing STA expires on June 25, 2010, and MTN requests an extension through August 24, 2010.

In its request for STA, MTN explained that it had an immediate need to begin testing of its C-band ESV remotes at its new assembly, integration and testing (“AIT”) facility in Petaluma pending modification of its C-band ESV authorization to add operations at the AIT facility on a permanent basis. MTN filed its modification application in May, and that application remains pending before the Commission. *See* File No. SES-MOD-20100505-00555. The need to test MTN’s C-band ESV remotes will continue past the June 25 expiration date of the existing STA, thereby necessitating this request to extend the STA for another 60 days pending Commission action on the modification application.

Grant of the instant request will serve the public interest by allowing final testing of MTN’s C-band remote units to continue at its AIT facility in Petaluma. Testing at the new AIT facility will help ensure that the specific requirements of ESV operation specified in Section 25.221 of the Commission’s rules will be diligently adhered to by MTN ESVs. This promotes the efficiency of use of the shared C-band frequencies by satellite and terrestrial systems, and will help protect C-band satellites operating from orbital locations adjacent to those MTN uses for its ESV services.

In summary, and on the basis of the information provided above, MTN respectfully requests, for a period of 60 days commencing on June 25, 2010, extended special temporary authority to operate the C-band ESV remote earth stations licensed under Call Sign E050281 at a fixed location in Petaluma.
