

APPLICATION FOR EARTH STATION SPECIAL TEMPORARY AUTHORITY

APPLICANT INFORMATION Enter a description of this application to identify it on the main menu:
STA to Operate E070014 with the launch and testing of EchoStar 15

1. Applicant

Name:	EchoStar Corporation	Phone Number:	303-723-1000
DBA Name:		Fax Number:	
Street:	100 Inverness Terrace East	E-Mail:	
City:	Englewood	State:	CO
Country:	USA	Zipcode:	80112 -
Attention:	Alison Minea - (202)293-1216		

With Condition
File # SES-STA-20100624-00785
Call Sign E070014 Grant Date 7/2/2010
(or other identifier)
Term Dates
From 7/10/2010 To: 9/10/2010
Approved: Jeanette W. Spriggs

Attachment

SES-STA-20100624-00785
E070014

Condition:

All operations shall be on an unprotected and non-harmful interference basis, i.e., EchoStar Corporation shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.

With Conditions

File # SES-STA-20100624-00785

Call Sign E070014 Grant Date 7/21/2010
(or other identifier)

From 7/10/2010 To: 9/10/2010
Term Dates

Approved: Jeanette D. Spriggs

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

61.55° W.L. The proposed testing also will not adversely affect the operations of any other spacecraft or other authorized spectrum users. EchoStar 15 is scheduled to launch on July 10, 2010, and EchoStar requests action on this request by that date.

I. GRANT OF THIS APPLICATION IS IN THE PUBLIC INTEREST

The Commission has a long-standing policy of granting Special Temporary Authority where such authorization will not cause harmful interference and will serve the public interest, convenience, and necessity.³ The requested operations meet both of these tests.

First, neither moving testing EchoStar 15 to 61.55° W.L. nor testing it at that slot will cause harmful interference to any other spacecraft or authorized user of the spectrum. While the satellite is raised and moved to 61.55° all transponders (other than the TT&C transponders) on the satellite will be turned off. Further, EchoStar operates all three satellites currently operating within the 61.5° W.L. orbital cluster – EchoStar 3, EchoStar 6, and EchoStar 12 – and intends to conduct testing on a non-interference basis using the available frequencies not capable of being used by those satellites. EchoStar is confident it will be able to fully coordinate its operations during testing, thereby avoiding any harm to consumers. EchoStar is not aware of any other BSS satellites planned to be brought into operation near 61.55° W.L. during the time frame of EchoStar 15's in-orbit testing or in the foreseeable future.

Second, the requested STA serves the public interest, as it will allow EchoStar to ensure that the satellite is safely maneuvered to the 61.55° W.L. orbital location and will operate correctly prior to bringing the satellite into service, thereby avoiding any subsequent interruption in service. Once testing is complete, EchoStar 15 will begin DBS operations from 61.55.

³ See, e.g., Newcomb Communications, Inc., *Order and Authorization*, 8 FCC Rcd. 3631, 3633 (1993); Columbia Communications Corp., *Order*, 11 FCC Rcd. 8639, 8640 (1996); American Telephone & Telegraph Co., *Order*, 8 FCC Rcd. 8742 (1993).

II. SECTION 304 WAIVER

In accordance with Section 304 of the Communications Act of 1934, 47 U.S.C. § 304, EchoStar hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum because of the previous use of the same, whether by license or otherwise.

III. CONCLUSION

For the foregoing reasons, EchoStar respectfully requests the expeditious grant of a 60-day STA, commencing on or about July 10, 2010, to operate two of its transmit/receive earth stations (Call Signs E980005 and E070014) to launch and raise EchoStar 15 to, and conduct testing at, 61.55° W.L.

During the orbital raising of EchoStar 15 to 61.55° W.L., all transponders other than the TT&C transponders will be switched off, and EchoStar will operate its earth stations subject to the following conditions:

1. No harmful interference will be caused to any lawfully operating satellite network or radio communication system, and EchoStar's operations will cease immediately upon notification of harmful interference. Furthermore, EchoStar shall notify the Commission immediately, in writing, of such an event.
2. EchoStar will accept interference from any lawfully operating satellite network or radio communication system.

In addition, during in-orbit testing, EchoStar will operate its earth stations subject to the following conditions:

1. EchoStar will not cause harmful interference to, and will not claim protection from interference caused by, any other lawfully operating satellites or radiocommunications systems.
2. Upon notification of any harmful interference, EchoStar will cease its test operations immediately. In addition, EchoStar will inform the Commission in writing that it has received such a notification.

Respectfully submitted,
EchoStar Corporation

/s/
