Country:	USA	Zipcode:	20852 -
Attention:	Mr Robert W Swanson		

With Condition
File # SES-STA-20100803-00976

Call Sign KA249 Grant Date 8/10/2010
(or other identifier)

Term Dates
From 8/12/2010 To: 9/10/2010

Approved: Paul E. Black
Chief Satellite Analysis Branch

Attachment

SES-STA-20100803-00976
KA249

Condition:

All operations shall be on an unprotected and non-harmful interference basis, i.e.,
Wizada shall not cause harmful interference to, and shall not claim protection from,
interference caused to it by any other lawfully operating station and it shall cease
transmission(s) immediately upon notice of such interference.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

Renewal of Special Temporary Authority is requested for provision of service to a C−band Earth Station on Vessel operating within 200 km of the U.S. which does not have the capability required by 25.221 (a) (12) to automatically cease transmission for violation of the terms of its coordination. As described in the attached Vizada will ensure by other means that there is no possibility of interference to any Fixed Service users.

Vizada, Inc.

Request for Renewal of Special Temporary Authority to Provide C-band ESV Service to
ESVs Operating Within 200 km of the United States
Without Automatic Coordination Violation Muting Capability

File No. SES-STA-20100709-00897

Call Sign KA249

August 3, 2010

Vizada, Inc. ("Vizada") requests renewal of the grant of special temporary authority ("STA") to allow provision of C-band Earth Station on Vessel (ESV) services via the Santa Paula Teleport, call sign KA249 (SAPA) to ESVs operating within 200 km of the United States (U.S. waters) which do not have the capability required by 25.221(a)(12) to automatically cease transmission for violation of the terms of its coordination. Vizada is ensuring that transmissions from such ESVs pose no possibility of interference to any fixed service operator by assigning transmissions from the ESV up to the satellite to a 6421.6 - 6423 MHz frequency. These frequencies have been successfully coordinated by Vizada for virtually the entire coastline of the U.S. west coast, Alaska and Hawaii as well as all major ports in those areas. Further, there is no possibility of transmission on these frequencies causing interference to fixed service operators even in the highly unlikely event that the vessel was to enter an area that has not been coordinated because these frequencies are above the guard band of the highest frequency channel used by fixed service operators.

Vizada is therefore respectfully requesting renewal of the STA to provide service to ESVs without the 25.221 (a)(12) capability requesting service from SAPA while operating in U.S. waters. Grant of this STA is in the public interest because it will assure continuity of service for such customers. Except for the 25.221 (a)(12) capability the ESVs will be in full compliance with the requirements of the Commission's ESV regulations as set forth in part 25 of the Rules. Accordingly, Vizada respectfully requests that the Bureau renew this STA for a period of thirty days with the understanding that this STA may only be utilized for ESVs transmitting up to the satellite on a 6421.6 – 6423 MHz frequency.

Any questions with respect to this matter should be directed to James G. Lovelace at 301-838-7909.
