Re: Request for Special Temporary Authority (STA)  
File No.: SES-STA-20100831-01110

Dear Mr. Hyde:

On August 17, 2010, Afren USA Inc (Afren), filed the above-captioned request for special temporary authority (STA) to operate a fixed-satellite service transmit/receive earth station facility, which it describes as "Temporary private VSAT network." Pursuant to Section 25.112 (a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), we dismiss this application without prejudice to refile.<sup>1</sup>

Section 25.112 of the Commission's rules, 47 C.F.R. §25.112, requires the Commission to return, as unacceptable for filing, any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. Afren's application is incomplete, and subject to dismissal, for the following reasons:

Section 25.120(a) of the Commission's rules, 47 C.F.R. §25.120(a) requires STA requests to contain the full particulars of operation. This includes frequency bands, powers and points of communication. Afren did not submit information relating to the frequency bands requested for operations, the type of equipment to be used, or the points of communications (satellites) with which Afren intends to operate. Further, Section 25.120(a) requires STA requests to include all facts sufficient to justify the temporary authority sought. Afren provided no such information. Without this information, we cannot make a finding that extraordinary circumstances require immediate operation and a delay in these operations would seriously prejudice the public interest. See 47 §25.120(b)(1).

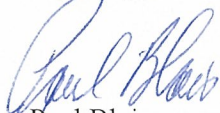

If Afren chooses to refile the STA request, it should provide both the full particulars of operation and a justification for the request. See Section §25.134 of the Commission's rules for licensing provisions for VSAT networks 47 C.F.R. §25.134. In addition, Afren should submit a radiation hazard analysis (see 47 C.F.R. §1.1307(b)) and a frequency coordination analysis if required by Section 25.130(b) of the rules, 47 C.F.R. §25.130(b).

---

<sup>1</sup> If WDR refiles an application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee. See 47 C.F.R. § 1.1111(d).

Accordingly, pursuant to Section 25.112 (a) (1) of the Commission's rules, 47 C.F.R. §25.112(a), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss this application without prejudice.

Sincerely,

Paul Blais  
Chief, Systems Analysis Branch  
Satellite Division  
International Bureau
