FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

October 15, 2010

Ms. Marlene H. Dortch

Secretary

Federal Communications Commission

Washington, D.C. 20554

Re: Request for Further Extension of Special Temporary Authority

Ellenwood, Georgia Earth Station E940532

Dear Ms. Dortch:

PanAmSat Licensee Corp. ("PanAmSat") herein requests a further 30-day extension -- through November 21, 2010 -- of the Special Temporary Authority ("STA")¹ originally granted PanAmSat to utilize its Ellenwood, Georgia Ku-band earth station -- call sign E940532 -- to provide telemetry, tracking and command ("TT&C")² services to the Intelsat 11 satellite at 43.0° W.L.²

The Intelsat 11 TT&C operations will continue to be performed in the following frequency bands:

- 13246.5 MHz and 13995.5 MHz in the uplink, and
- 11448 MHz and 11449 MHz in the downlink.

The TT&C operations at 43.0° W.L. are compliant with PanAmSat's coordination agreements governing operations at that location.

PanAmSat incorporates herein by reference the exhibits previously submitted, which contain technical information concerning the TT&C operations. As PanAmSat previously noted, the proposed TT&C operations will be within the antenna's licensed parameters. In addition, the proposed operations will comply with the two-degree spacing requirements set forth in Section

¹ PanAmSat has filed this STA request, an FCC Form 159, a \$175.00 filing fee and this supporting letter electronically via the International Bureau's Filing System ("IBFS").
² See *Satellite Communications Services Information; Actions Taken, Report No. SES-01282, File No. SES-STA-20100920-01178* (Sept. 29, 2010) (Public Notice); *Satellite Communications Services Information; Actions Taken, Report No. SES-01275, File No. SES-STA-20100812-01028* (Sept. 1, 2010) (Public Notice).

Ms. Marlene H. Dortch

25.211(d)(2) of the FCC's rules. As such, the operations of other lawfully operating terrestrial radio communications facilities will not be subject to electromagnetic interference levels above the levels that they would receive under normal operation in accordance with the terms of their licenses.

Grant of this STA extension request will allow PanAmSat to continue required TT&C operations for the Intelsat 11 satellite while it conducts the antenna swap needed to accommodate customers whose current antenna is in need of replacement amplifiers. Thus, grant of this STA extension request will help ensure continuity of service to these customers, as well as safe station-keeping of the satellite, thereby promoting the public interest.

Please direct any questions regarding this STA extension request to the undersigned at (202) 944-7848.

Respectfully submitted,

Susan H. Crandall
Assistant General Counsel
Intelsat Corporation
