IBFS File Nos, SES-STA-20101021-01314, SES-STA-20101021-01315, SES-STA-20101021-01316, SES-STA-20101021-01317 (Call Signs E000342, E000343, E000344, E000345)

The request of GUSA Licensee LLC for special temporary authority IS GRANTED IN PART. GUSA Licensee LLC is authorized, for a period of 60 days, commencing on October 27, 2010, to operate the Clifton earth stations (Call Signs E000342, E000343, E000344, and E000345) in the 5091-5250 MHz (Earth-to-space) and 6875-7055 MHz (space-to-Earth) frequency bands for testing and telecommand, telemetry, and control communications with HIBLEO-X satellites and U.S.-licensed Globalstar satellites (Call Sign S2115), in accordance with the technical parameters specified in the application, except that the EIRP spectral density of telecommand transmissions shall not exceed 55.2 dBW/4kHz. The request for authority to operate with power spectral density higher than 55.2 dBW/4kHz IS DEFERRED for further consideration. This temporary authorization is subject to the following conditions.

1. All operations pursuant to this authorization shall be on an unprotected and non-harmful interference basis. Operations shall not cause harmful interference to, and GUSA Licensee LLC shall not claim protection from interference caused by, any other lawfully operating station. In the event that harmful interference results, operations shall cease immediately upon notification of such interference, and GUSA Licensee LLC shall immediately inform the Commission in writing of such event.
2. No authority for commercial operation is granted herein.
3. This action is without prejudice to disposition of the application in IBFS File Nos. SES-MFS-20091221-01608, SES-MFS-20091221-01609, SES-MFS-20091221-01610, and SES-MFS-20091221-01611.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

GUSA Licensee LLC is applying for special temporary authority to operate the earth station antenna in Clifton, TX, to support the launch campaign of the second generation replacement Globalstar satellites. The earth station antenna in Clifton will be used to communicate with the current Globalstar satellites (Call sign S2115) and the replacement satellites Globalstar 2.0. Globalstar has filed four separate applications for special temporary authority -- one for each antenna at the Clifton, Tx location. Globalstar requests that they be processed simultaneously. Multiple earth station antennas provide opportunities for telemetry and control of multiple satellites in view simultaneously at a ground location, which is a common occurrence for a LEO satellite constellation.
