Re: Intelsat North America LLC, Request for Further Extension of
Special Temporary Authority for Clarksburg, Maryland Earth
Station, Call Sign KA275, File No. SES-STA-20101123-01462.

Dear Ms. Dortch:

Intelsat North America LLC (“Intelsat”), by counsel, herein supplements the above-referenced pending request for special temporary authority for Intelsat to use its Clarksburg, Maryland earth station (call sign KA275) to provide emergency communications services to the AMC-1 satellite from December 2, 2010 through December 31, 2010.¹

Specifically, Intelsat notifies the Commission that SES WORLD SKIES (“SES”) has informed Intelsat that SES intends temporarily to move the AMC-1 satellite up to .02 degrees outside of the western edge of its assigned station-keeping box at 103° W.L., *i.e.* to 103.07° W.L. The AMC-1 satellite’s operation outside of its station-keeping box will minimize disruptions to customers as the uncontrolled Galaxy 15 satellite (call sign S2387) passes through the 103° W.L. orbital location on or about December 3, 2010.²

Please contact the undersigned with any questions.

Sincerely,

/s/ Jennifer D. Hindin

Jennifer D. Hindin
Counsel to Intelsat North America LLC
