IBFS File Nos. SES-STA-20110225-00211 (E030266), SES-STA-20101212-01533 (E970199), SES-STA-20110225-00207 (E970199), SES-STA-20110225-00208 (E000342), SES-STA-20110225-00209 (E000343), SES-STA-20110225-00210 (E000344), SES-STA-20110225-00213 (E000345), SES-STA-20110225-00214 (E050097), SES-STA-20110225-00215 (E050098), SES-STA-20110225-00216 (E050099), SES-STA-20110225-00217 (E050100)

The referenced requests for extension of special temporary authority ARE GRANTED. GUSA Licensee LLC is authorized to operate a fixed earth station in Clifton Texas (E030266) in the 1610-1618.725MHz (Earth-to-space) and 2483.5-2500 MHz (space-to-Earth) frequency bands for test communications with HIBLEO-X satellites for an additional period ending April 17, 2011; to operate other fixed earth stations in Clifton, Texas (Call Signs E970199, E000342, E000343, E000344, and E000345) in the 5091-5250 MHz (Earth-to-space) and 6875-7055 MHz (space-to-Earth) frequency bands for testing and telecommand, telemetry, and control communications with HIBLEO-X satellites for an additional period of 60 days ending April 17, 2011, to operate a fixed earth station in Sebring, Florida (Call Sign E050097) in the 5091-5250 MHz (Earth-to-space) and 6875-7055 MHz (space-to-Earth) frequency bands for testing and telecommand, telemetry, and control communications with HIBLEO-X satellites for an additional period ending April 17, 2011; and to operate other fixed earth stations in Sebring, Florida (Call Signs E050098, E050099, and E050100) in the 5091-5250 MHz (Earth-to-space) and 6875-7055 MHz (space-to-Earth) frequency bands for testing and telecommand, telemetry, and control communications with HIBLEO-X satellites for an additional period ending April 17, 2011 in accordance with the technical parameters specified in the STA applications, except that the EIRP spectral density of telecommand transmissions shall not exceed 55.2 dBW/4kHz.¹ The request for authority to operate with power spectral density higher than 55.2 dBW/4kHz IS DEFERRED for further consideration. These temporary authorizations are subject to the following further conditions.

1. All operations pursuant to this authorization shall be on an unprotected and non-harmful interference basis. Operations shall not cause harmful interference to, and GUSA Licensee LLC shall not claim protection from interference caused by, any other lawfully operating station. In the event that harmful interference results, operations shall cease immediately upon notification of such interference, and GUSA Licensee LLC shall immediately inform the Commission in writing of such event.

2. No authority for commercial operation is granted herein.

Term Dates
From 02/23/2011 To: 04/23/2011
Approved: Paul E. Miller

¹ With one exception, operations of the subject stations between the February expiration dates of prior STAs and the date of today's action were pursuant to Section 1.62 of the Commission's rules, based on separately pending requests for special temporary authority for these stations filed January 28, 2010. File No. SES-STA-20101212-01533, which sought extension of an earlier STA grant, will also be shown as granted to reflect operations pursuant to Section 1.62 from December 14, 2010 onward. See File No. SES-STA-20100922-01188 (granting STA through December 13, 2010).

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

GUSA Licensee LLC is applying for an extension of its special temporary authority to operate the TCU earth station antenna at Clifton, Tx to support the launch campaign of Globalstar's second-generation constellation. This antenna will be used to communicate with satellites in Globalstar's first-generation constellation (FCC call sign S2115) and in its French-licensed second-generation constellation. Globalstar has filed five separate applications for extension of special temporary authority -- one for each antenna at the Clifton, Tx location. Globalstar requests that they be processed simultaneously. Multiple earth station antennas provide opportunities for telemetry and control of multiple satellites in view simultaneously at a ground location, which is a common occurrence for a LEO satellite constellation.
