Re: Request for Special Temporary Authority – Enterprise Products, LLC

Pursuant to Section 25.120(a) of the Rules and Regulations (“Regulations”) of the Federal Communications Commission (“Commission”), Enterprise Products, LLC. (“Enterprise Products”) seeks Commission consideration for a Special Temporary Authority (“STA”) to operate a new earth station while an application for authority undergoes Commission review.

According to Section 25.120(b)(3) of the Regulations, the Commission may grant temporary authority for a period not to exceed 60 days, if the STA request has not been placed on public notice, and the applicant plans to file a request for regular authority for the service. In the instant case, the STA request has not been placed on public notice, but Enterprise Products has filed an application for new earth station authority implementing a Channel Master 2.4m C-Band antenna. See Submission ID: SES-LIC-INTR2011-01059 . Therefore, Enterprise Products respectfully requests an STA for a period not to exceed 60 days.

Enterprise Products provides a range of services to producers and consumers of natural gas and natural gas liquids (NGL) in North America. It operates in four segments: Pipelines, Fractionation, Processing, and Octane Enhancement. The Pipelines segment consists of NGL, petrochemical, and natural gas pipeline systems; storage; and import/export services. The Fractionation segment primarily includes NGL and propylene fractionation, and isomerization services. The Processing segment includes natural gas processing and related NGL marketing activities. The Octane Enhancement segment consists of facilities that produce motor gasoline additives to enhance octane.

Enterprise Products’ VSATs are often located in remote and isolated areas where satellite is the only means of communication. Communications between Enterprise Products’ Network Operations Center and remote locations is vital so that Enterprise Products may monitor and control equipment in these locations as well as insure the safety of its personnel. Without a fully functioning communications system, Enterprise Products would be required to shut down the transmission of natural gas throughout its lines.

According to Section 25.120 (b)(1) of the Regulations, "The Commission may grant a temporary authorization only upon a finding that there are extraordinary circumstances requiring temporary operations in the public interest and that delay in the institution of these temporary operations would seriously prejudice the public interest". Because of the important nature of the communications carried by Enterprise Products’ system, it is critical that Enterprise Products continue to operate while the application for modification is underway. As this is a C-band earth station operating in the standard band, prior frequency coordination has been performed. Also, a radiation hazard study has been performed and submitted with the underlying application.

The requested date for prior use is May 1, 2011. In accordance to Section 25.120(a) of the Regulations, this STA is being filed at least 3 working days prior to the date of proposed operation. The proposed satellite is at AMC-3 at 87W.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.
