**Subject:** NewCom STA Request -- Joplin, MO

Paul/Frank,

We have examined the statement you pointed out in Attachment A, paragraph 4, of NewCom's Joplin, MO STA that currently states: "Maximum RF power transmitted from the 1.2m Patriot stations will not exceed 6 dBW/MHz and maximum EIRP will not exceed 49.2 dBW/MHz or 25.22 dBW/4KHz."

We agree that the Attachment A mistakenly excluded "density" following "EIRP." Accordingly, we seek to correct that attachment so that it reads as follows: "Maximum RF power transmitted from the 1.2m Patriot stations will not exceed 6 dBW/MHz and maximum EIRP **density** will not exceed 49.2 dBW/MHz or 25.22 dBW/4KHz."

I have enclosed a revised version of Attachment A that reflects the change.

Please let us know if you need any additional information.

Thank you very much for your time and effort on this matter.

Frank L.
