Re: **Globalstar, Inc.**
File Nos. SAT-AMD-20091221-00147, etc.¹

Dear Ms. De La Torre,

Globalstar, Inc., on behalf of its affected subsidiaries ("Globalstar"), hereby notifies the Commission that on August 29, 2011, Globalstar received from the French Ministry in charge of space licensing, Ministère de l'Enseignement supérieur et de la Recherche ("Ministry"), the authorization requested by the French Space Act to register its second generation satellite constellation. Further, the Ministry confirmed that all of the HIBLEO-X satellites previously launched by Globalstar are to be listed on the National Register of France and that the French relevant authorities have undertaken to register the satellites with the United Nations pursuant to the terms of the Convention on Registration of Objects Launched into Outer Space.

Accordingly, Globalstar has now satisfied the conditions of the Commission's March 2011 *Order*, bringing that order into full force and effect, and this letter serves as the notification required by that *Order*.² Globalstar intends to commence commercial communications from its Commission-licensed earth stations with these satellites as soon as possible, but no later than August 31, 2011.

For your reference, please see enclosed:

1. A cover letter from the Ministry explaining that the authorization and registration process has been successfully completed; and
2. The Arrêté issued by the Republic of France under the June 3, 2008 French law n° 2008-518 ("Authorization").

Please do not hesitate to contact me with any questions.

Respectfully submitted,

L. Barbee Ponder IV
