FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

BFI Licenses, LLC
STA Request
September 2011

Public Interest Statement

BFI Licenses, LLC ("BFI") hereby respectfully requests grant of special temporary authority ("STA") to permit the near-term operation of a transmit/receive temporary fixed satellite Earth station pursuant to Section 25.120(a) of the Commission's Rules. BFI requests that the STA be granted for a period of sixty (60) days consistent with Section 25.120(b)(3) of the Rules, which provides that the Commission may grant an STA of this duration where the STA request has not been placed on public notice, and the applicant has filed or plans to file a request for long-term operating authority.

Consistent with the rule, BFI has filed contemporaneously with this STA request an FCC Form 312 application seeking long-term authority to operate the proposed temporary-fixed Earth station. The proposed facility will be a satellite news gathering vehicle with a 2.4 meter C-band Vertex/RSI satellite antenna permanently mounted to a truck. This facility will be used to provide coverage of remote news events, sporting events, emergency and weather-related on-site reports and other programming that will benefit the public interest. Grant of the requested STA will permit BFI to operate the proposed facility as quickly as possible to meet the needs of broadcast and cable programming networks that require these services on an immediate basis during the period that the above-referenced application is being processed.

The requested date for prior use is September 22, 2011, one week from the date of filing. It is therefore consistent with the requirement under Section 25.120(a) that such requests be submitted at least three (3) working days prior to the proposed date of operation.
