***Re: Request for Renewal of STA Granted to Test Remote Terminal
SES-STA-20110901-01019 Granted on September 6, 2011
FCC Form 601***

Dear Ms. Dortch:

Tachyon Networks Incorporated (“Tachyon”) was granted a Special Temporary Authority to Test a new 18” remote terminal communicating with an Intelsat-owned, U.S. licensed hub in the frequency bands 11.7-12.2 GHz and 14.0-14.5 GHz on September 6, 2011, File No. SES-STA-20110901-01019 (“STA”). The STA was granted for the period September 10, 2011 through October 9, 2011. Tachyon desires to renew the STA.

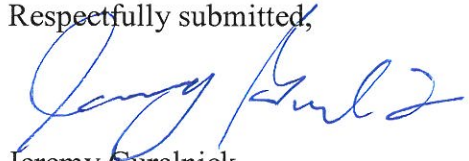

This is the same application that Tachyon previously submitted and which was granted on May 19, 2011, File No. SES-STA-20110427-00518 (“May STA”) and again submitted on September 1, 2011, File No. SES-STA 20110901-01019 (“September STA”).

All technical information in the May STA and the September STA is incorporated herein by this reference. Tachyon accepts conditions substantially similar to those conditions of the May STA and the September STA. In the unlikely event that harmful interference occurs, Tachyon will take all reasonable steps to eliminate the interference.

Due to scheduling delays, Tachyon has not conducted its stationary testing as planned. Tachyon requests a renewal of the September STA for one (1) month commencing on October 9, 2011 and continuing to November 8, 2011. Tachyon is optimistic that it can complete the stationary testing within this timeframe.

Please direct any questions regarding this STA request to the undersigned at (619) 252-4158 or by email at jeremy.guralnick@tachyon.com. Your assistance with this matter is appreciated.

Respectfully submitted,
