REQUEST FOR SPECIAL TEMPORARY AUTHORITY

TeleBEEPER of New Mexico, Inc. (“TeleBEEPER”), by its attorneys and pursuant to Section 25.120 of the Commission’s Rules, 47 C.F.R. § 25.120, hereby requests Special Temporary Authority (“STA”) in order to operate a transmit/receive earth station at 4545 McLeod NE. Ste. C, Albuquerque, NM. TeleBEEPER has immediate need to obtain a new earth station at its current headquarters; it is therefore submitting this request for STA, and will file an application for permanent authority as soon as possible.

The requested technical parameters for the proposed earth station are as follows:

Address: 4545 McLeod NE. Ste. C
Albuquerque, NM

Coordinates: 35° 08’ 15.9” N
106 ° 35’ 40.4” W

#	Frequency	Polarization	Emission	TX/RX Mode	Max EIRP/Carrier	Max EIRP Density	Associated Antenna

Max Gains(s): 47.5 dBi @ 12.0000 GHz 49.2 dBi @ 14.0000 GHz

Maximum total input power at antenna flange (Watts): 0.0

Maximum aggregate output EIRP for all carriers (dBW): 0.0

Due to contractual issues for carrier's carrier services used by TeleBEEPER in connection with its wireless networks, TeleBEEPER needs to operate its own earth station facilities. Absent an immediate grant of authority pending the completion and processing of an application for permanent authority, there will be disruptions in the control of those networks, which may lead to disruptions or degradations of service to TeleBEEPER's customers.

The Commission has previously found TeleBEEPER qualified to be a licensee. TeleBEEPER has operated FCC-licensed facilities in various radio services for years. Consequently, there should be no impediments to a grant of this request for STA.

For all the foregoing reasons, TeleBEEPER respectfully requests that the Commission expeditiously grant this request for Special Temporary Authority.
