Special Temporary Authority

Sirius XM Radio Inc. is granted, under the following conditions, Special Temporary Authority for 30 days, from February 21, 2012 through March 22, 2012 to use its earth station in Ellenwood, Georgia to provide Launch and Early Orbit Phase (LEOP) and In Orbit Testing services to FM-6 satellite at orbit location 120.50° W.L. Upon completion of testing, the FM-6 satellite will be relocated to its assigned orbital location 116.15° W.L.

1. Uplink to FM-6 on: 7051.5 – 7052.5 MHz, 7055.5 – 7056.5 MHz, 7060.0 – 7064.5 MHz, 7068.0 – 7072.5 MHz.
2. Downlink from: 2320.0 – 2332.5 MHz.
3. Sirius XM Radio Inc. will not exceed the previously-coordinated parameters during the proposed testing and will not cause harmful interference to the operations of any other spacecraft and authorized terrestrial operations. Sirius XM Radio will cease transmissions promptly in the event any harmful interference is caused by such operations. Sirius XM Radio must immediately Terminate transmissions and notify the FCC in writing.
4. The LEOP operations must be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

**Sirius XM Radio Inc. and XM Radio LLC
Request For Special Temporary Authority
For Earth Stations with Call Signs E080168 and E040204
To Provide LEOP and IOT Services for the FM-6 Satellite**

Sirius XM Radio Inc. and XM Radio LLC (collectively "Sirius XM") herein requests a grant of Special Temporary Authority ("STA") for 30 days, from February 21, 2012 through March 22, 2012, to use the S- and X-band antennas on its Ellenwood, Georgia earth stations (call signs E080168 and E040204) to provide launch and early orbit phase ("LEOP") services to, and in orbit testing ("IOT") of, its FM-6 satellite (call sign S2812). Sirius XM expects to launch the FM-6 satellite on February 21, 2012, perform LEOP, position the satellite at an orbital location of 120.5° W.L., and perform IOT at this location. Upon completion of testing, the FM-6 satellite will be relocated to the 116.15° W.L. orbital location, its assigned operating position.

Sirius XM will conduct LEOP and IOT operations for FM-6 in the satellite's authorized frequency bands. More specifically, the Ellenwood, GA earth stations will use the following frequencies:

2320.0 – 2332.5 MHz (downlink)
7051.5 – 7052.5 MHz (uplink)
7055.5 – 7056.5 MHz (uplink)
7060.0 – 7064.5 MHz (uplink)
7068.0 – 7072.5 MHz (uplink)

Grant of this STA will serve the public interest by ensuring the safe launch of FM-6. It will also facilitate entry into operation of the FM-6 satellite. Approval of this STA is the final required regulatory step.

Moreover, grant of this request will not cause harmful interference to other satellite operators. Sirius XM won exclusive satellite rights to the SDARS 2.3 GHz spectrum at auction and will coordinate internally its LEOP and IOT operations with its other in-orbit satellites. No other satellite operators will be affected by Sirius XM's use of these LEOP and IOT frequencies.

Similarly, grant of this request will not cause harmful interference to existing or proposed terrestrial facilities operating in the X-band. As shown in the attached Frequency Coordination and Interference Analysis Reports prepared by Comsearch, Sirius XM has coordinated its proposed use of its Ellenwood, GA earth stations with all existing or proposed terrestrial facilities operating in the shared 7 GHz frequency band, including national licensees. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth stations, Sirius XM will take all reasonable steps to eliminate the interference.

In light of the above, Sirius XM respectfully requests Commission approval of this STA request.
