

**UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
RADIO STATION AUTHORIZATION**

*Prior(Closed) Authorization : FCC WEB Reproduction  
Unofficial Copy*

**Name:** KSBJ EDUCATIONAL FOUNDATION  
(d/b/a Ksbj Radio)

**Call Sign:** E940280  
**File Number:** SES-LIC-19940421-01478

**Authorization Type:** License  
Non Common Carrier **Grant Date:** 06/24/1994 **Expiration Date:** 06/24/2004

**Nature of Service:** Domestic Fixed Satellite Service

**Class of Station:** Fixed Earth Stations

**A) Site Location(s)**

| #  | Site ID | Address                               | Latitude        | Longitude      | Elevation (Meters) | NAD | Special Provisions (Refer to Section H) |
|----|---------|---------------------------------------|-----------------|----------------|--------------------|-----|---|
| 1) | 1       | 327 WILSON ROAD<br>HUMBLE, HARRIS, TX | 29° 59' 45.0" N | 95° 15' 0.0" W | 22.9               | UNK |   |

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning Friday, June 24, 1994 (3 AM Eastern Standard Time) and ending Thursday, June 24, 2004 (3 AM Eastern Standard Time). The required date of completion of construction and commencement of operation is Saturday, June 24, 1995 (3 AM Eastern Standard Time). Grantee must file with the Commission a certification upon completion of construction and commencement of operation.

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.  
The General Provision 1900 applies to all transmitting frequency bands.  
For the text of these provisions, refer to Section H.

| #  | Frequency             | Polarization | Emission | Tx/Rx Mode | Max EIRP /Carrier | Max EIRP Density | Associated Antenna | Special Provisions (Refer to Section H) | Modulation/ Services |
|----|-----------------------|--------------|----------|------------|-------------------|------------------|--------------------|---|----------------------|
| 1) | 5925.0000 - 6425.0000 | H,V          | 400KG1D  | T          | 52.20             | 32.18            | 1                  |   |                      |
| 2) | 3700.0000 - 4200.0000 | H,V          | 400KG1D  | R          |                   |                  | 1                  |   |                      |

**C) Frequency Coordination**

| #  | Frequency Limits(MHz) | Satellite Arc (Deg. Long.) |            | Elevation (Degrees) |            | Azimuth (Degrees) |            | Max EIRP Density toward Horizon (dBW/4kHz) | Associated Antenna(s) |
|----|-----------------------|----------------------------|------------|---------------------|------------|-------------------|------------|--|-----------------------|
|    |                       | East Limit                 | West Limit | East Limit          | West Limit | East Limit        | West Limit |  |                       |
| 1) | 5925.0000 - 6425.0000 | 69.0W                      | -143.0W    | 44.8                | - 27.9     | 135.4             | - 245.6    | -18.0                                      | 1                     |

**D) Point of Communications**

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:  
1) 1 to All authorized U.S. Domestic (ALSAT) Satellites.

**E) Antenna Facilities**

| Site ID | Antenna ID | Units | Diameter (Meters) | Manufacturer | Model Number | Site Elevation | Max Antenna Height (Meters) | Special Provisions (Refer to Section H) |
|---------|------------|-------|-------------------|--------------|--------------|----------------|-----------------------------|---|
| 1       | 1          | 1     | 3.8               | PRODELIN     | 1381         | 22.9           | 5.0 AGL/ 27.4 AMSL          |   |

Max Gains(s):42.1 dBi @ 4.0000 GHz 46.0 dBi @ 6.0000 GHz  
Maximum total input power at antenna flange (Watts) = 0.0  
Maximum aggregate output EIRP for all carriers (dBW)0.0

**Call Sign:** E940280  
**File Number:** SES-LIC-19940421-01478

**Authorization Type:** License  
Non Common Carrier **Grant Date:** 06/24/1994 **Expiration Date:** 06/24/2004

**F) Remote Control**

1 **Call Sign:** E940280

**G) Antenna Structure marking and lighting requirements:**

None unless otherwise specified under Special and General Provisions

**H) Special and General Provisions**

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 1010 Applicable to all receiving frequency bands. Emission designator indicates the maximum bandwidth of received signal at associated station(s). Maximum EIRP and maximum EIRP density are not applicable to receive operations.
- 1900 Applicable to all transmitting frequency bands. Authority is granted to transmit any number of RF carriers with the specified parameters on any discrete frequencies within associated band in accordance with the other terms and conditions of this authorization, subject to any additional limitations that may be required to avoid unacceptable levels of inter-satellite interference.
- 2000 The hours of operations of this station are not limited.
- 2010 This authorization is issued pursuant to the Commission's Second Report and Order adopted June 16, 1972 (35 FCC 2d 844) and Memorandum, Opinion and Order adopted December 21, 1972 (38 FCC 2d 665) in Docket No. 16495 and is subject to the policies adopted in that proceeding.
- 2061 The use of these small diameter earth station facilities is authorized pursuant to the Commission's decisions in American Broadcasting Companies 62 FCC 2d 901 (1976) and Routine Licensing of Earth Stations in the 6 GHz Band Using Antennas Less than 9 meters in Diameter for Narrowband Transmission (Mimeo 7237) released September 25, 1985.
- 2500 With respect to potential co-channel interference to or from terrestrial microwave radio stations: receive frequency band(s) listed in Section B of this authorization have been cleared for transmissions from and transmit frequency band(s) listed in Section B have been cleared for transmission to satellites located in the portion of the geostationary satellite orbit specified in Section D for the emissions designated in Section B.
- 2510 Waiver of Section 25.203 (e) of the Commission's Rules and Regulations is granted for the beam intersections listed in the application(s) for this facility.
- 2810 The grantee shall maintain on file with the Commission's current list or plan of the precise frequencies in actual use at this station, specifying for each such frequency: the r.f. center frequency, polarization, emission designator, EIRP (dBW), EIRP density (dBW/4kHz), and receiving earth station(s). This list or plan may be submitted either on a station-by-station basis or on a system-wide basis, and shall be updated within seven days of any changes in frequency usage at this station. Temporary usage of frequencies for periods of less than seven days need not be notified to the Commission if accurate station records are maintained of the times and particulars of such temporary frequency usage.
- 2916 Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
- 2938 Upon completion of construction, each licensee must file with the Commission a certification including the following information: name of the licensee, file number of the application, call sign of the antenna, date of the license and certification that the facility as authorized has been completed, that each antenna facility has been tested and is within 2 dB of the pattern specified in Section 25.209 and that the station is operational including the date of commencement of service and will remain operational during the license period unless the license is submitted for cancellation.

**H) Special and General Provisions**

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of construction permit for additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

**Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulates is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993". These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.**
