Applicant: Globecom Systems, Inc.
Call Sign: E120057
File No.: SES-STA-20120509-00426
Special Temporary Authority (STA)

Globecom Systems, Inc. is granted STA for a 30-day period under the following conditions:

1. Operations in the conventional Ku-band (downlink frequencies 11.7-12.2 GHz and uplink frequencies 14.0-14.5 GHz) with ALSAT is authorized. Extended Ku-band frequency operations are not authorized. Extended Ku-band frequency operations authorizations require the applicant to specify specific Points of Communication.
2. Operations under this authority are on a non-interference basis only.
3. Operations under this authority are on a non-protected basis only.
4. In the event that there is a report of interference, Globecom Systems, Inc. must immediately terminate transmissions and notify the FCC in writing.
5. This is granted without prejudice to any future FCC enforcement action in connection with any unauthorized operation of radio facilities.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

Public Interest

Globecom Systems, Inc. ("GSI") is an applicant for a proposed international 1.0 meter Kuband transmit/receive earth station at their Hauppauge, New York teleport (E120057; SES-LIC-20120315-00272). An STA was previously granted (SES-STA-20120315-00273) but was inadvertently allowed to expire. The station is to be used to monitor and test the Maresk shipping companies vessels at sea communication systems which provide communications as well as tracking individual shipping containers. These vessels, in many cases, will be communicating directly with and carrying goods of U.S. Citizens. The STA would give GSI authority to operate the earth station, to align and test the earth station prior to grant which will avoid delay of use of the station by the customer when the earth station is authorized. Further STA is requested to continue with the alignment and testing process. This temporary operation to test and align would be in the public interest by enabling immediate customer usage of the communications and cargo tracking upon grant of the license application by providing the customer continued information relating to domestic and international status that would affect the citizens financial status and loss of goods. Accordingly, grant of the STA is in the public interest.
