Re: STA Request
Ku-Band Transmit Earth Station
Newton, Connecticut

To Whom It May Concern:

This STA is being requested to allow **CTV Television** (a division of Bellmedia), to provide News coverage of the school shooting in Newton Connecticut using a CTV owned and operated SNG truck. The earth station will transmit News coverage from the Newton, Connecticut site and downlink the signal to the studio location in Toronto, Canada. The signal will be distributed on the applicant's TV broadcast system. All traffic will be on the Galaxy 17K satellite located at 91 degrees West Longitude. The STA is requested for a period of 7 days starting on Friday December 14, 2012. This time frame will allow for the news coverage the shooting at Sandy Hook Elementary School.
