Applicant: NBC Telemundo License LLC  
Call Sign: E130111  
File No.: SES-STA-20130826-00765  
Special Temporary Authority

NBC Telemundo License LLC (NBC Telemundo) is granted Special Temporary Authority (STA) for 30 days, from 09/09/2013 thru 10/10/2013, to perform testing on its new 9 meter antenna at location 34° 08' 29.3" N.L. and 118° 20' 47.1" W.L. in Universal City, Los Angeles, California. Operations with the ALSAT-designated satellites in the 5925 6425 MHz (Earth-to-space) and 3700-4200 MHz (space-to-Earth) frequency bands as its point of communications is permitted under the following conditions:

- 1) NBC Telemundo must comply the frequency coordination report parameters submitted under IBFS File No. SES-LIC-20130624-00532/SES-AMD-20130718-00645.
- 2) Operations under this STA shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
- 3) Grant of this STA is without prejudice to any determination that the Commission may make regarding other any application.
- 4) Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the antennas' power flux-density levels exceed the specified guidelines.
- 5) Any action taken or expense incurred as a result of operations pursuant to this STA is solely at NBC Telemundo's risk.
- 6) This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

**STA Application  
File No. SES-AMD-20130718-00645**

As part of a major plan to upgrade the facilities and equipment used by NBCUniversal Media, LLC ("NBCU") in the Los Angeles area, NBCU is building a new broadcast center to replace its current Burbank facilities. The new facility is being constructed to house NBC Network and News operations, along with KNBC, NBC's Los Angeles owned station, and KVEA, Telemundo's Los Angeles owned station, and will include newsroom facilities, production studios and a content distribution center. To realize the maximum benefit from the new facilities, NBCU is in the process of acquiring new equipment, and NBC Telemundo License LLC (the "Licensee") has recently filed a number of applications for new earth station authorizations. One of these applications, SES-AMD-20130718-00645, Call Sign E130111, is for a Transmit Receive Earth Station for the NBC and Telemundo Networks for which we hereby request Special Temporary Authority ("STA") in order to perform necessary equipment testing and debugging operations while that application is pending.

Our present location must be cleared of equipment before the end of 2013, necessitating that the decommissioning process of currently active equipment begin no later than November 1, 2013. On October 1, we plan to shadow our current Burbank transmission operation from the new center. To facilitate this plan, we request an effective date for the STA of September 1, 2013, which would allow a 30-day period to verify uplink performance and to make any necessary adjustments before going live from the new facility on November 1.

The technical showings accompanying the pending applications demonstrate that operation of the new equipment will not cause interference to other licensed users. This equipment will play a key role in accomplishing NBCU's objectives to more effectively serve its viewers by ensuring the timely delivery of the news, information and public affairs programming on which they rely. For these reasons, grant of the requested STA would serve the public interest.
