Request for Special Temporary Authority

Televisa, S.A de C.V., a Mexican corporation and an applicant for FCC authority to license a temporary fixed Earth station as filed with the FCC today (Form 312 attached), pursuant to Sections 74.433 and 1.931 of the Commission's Rules, hereby requests Special Temporary Authority for a period of 180 days to operate said station (TVSA-Mob 4) throughout the Continental United States. Televisa has already received an FCC license for its Mob-1 facility (E130127).

The purpose of this request is to allow Televisa, a network organization operating in Mexico, to carry the live telecasts of sporting events of significant interest to its viewers -- each of which events are scheduled outside the control of Televisa.

No broadcast will take place until frequency coordination at the particular location for the selected date has been undertaken and confirmed.

Because of the imminent nature of the prospective telecasts, urgent action on this request for STA is respectfully requested.

If there are any questions with respect to this request, please contact the undersigned counsel for Televisa, S.A. de C.V.

ACKNOWLEDGEMENT OF FREQUENCY COORDINATION REQUIREMENTS AND FREQUENCY
COORDINATION CERTIFICATION FOR C-BAND OPERATION

ACKNOWLEDGEMENT OF FREQUENCY COORDINATION REQUIREMENTS

The applicant acknowledges that they are familiar with the FCC Rules and Regulations Part 25.130 (b), this rule states that a frequency coordination analysis will be submitted with this application. However this request for application is for a transportable earth station that will operate at various locations throughout the United States and its territories and no specific site is identified during the filing process.

The applicant does not request that the coordination process be circumvented only that no coordination exhibit is required for this transportable application. The following certification demonstrates that the applicant will follow the coordination process required for temporary earth station operation.

FREQUENCY COORDINATION CERTIFICATION FOR C-BAND OPERATION

The applicant certifies that they are familiar with Parts 101 and 25 of the FCC Rules and Regulations regarding the frequency coordination process. The applicant is aware of and agrees to perform an analysis and notification to potentially affected carriers prior to transmitting at each location. Copies of all coordination notices will be forwarded to the FCC Operations Center Office in Columbia, Maryland.
