Special Temporary Authority (STA)

SES Government Solutions, Inc. (SES Government Solutions) is granted STA for 30 days to operate a fixed earth station with two 1.8 meter GD/Prodelin model GDST-1.8M located at a facility in Bristow, VA (38 deg 47' 0.25" N.L./077 deg 34' 24.5" W.L.) to communicate with O3b's in-orbit NGSO FSS satellite system, licensed by the United Kingdom, in the 18.372-18.588 (space-to-Earth) and the 28.172-28.388 GHz (Earth-to-space) frequency bands under the following conditions:

1. SES Government Solutions shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
2. Grant of this authorization is without prejudice to any determination that the Commission may make regarding any other pending or future application seeking to communicate with the O3b's satellite system (*e.g.*, SES Government Solutions' pending application IBFS File No. SES-STA-20131022-00887).
3. Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the antennas' power flux-density levels exceed the specified guidelines.
4. This authorization does not constitute grant of Market Access for O3B's NGSO FSS system.
5. Operations under this authority are on a non-interference basis only.
6. Operations under this authority are on a non-protected basis only.
7. The total input power at antenna flange must not exceed 40 Watts.
8. The power flux-density at the Earth's surface produced by emissions from O3b's NGSO FSS system for all methods of modulation shall not exceed the levels established in 47 C.F.R. §§ 25.308(c), (e) and Article 21 of the ITU Radio Regulations.
9. The operations of the O3b NGSO FSS satellite system must not exceed the EPFD limits in Nos. 22.5C, 22.5D, and 22.5F of the ITU Radio Regulations.
10. O3b satellite transmissions must be conducted in accordance with the coordination agreement between O3b and U.S. government systems signed on January 17, 2013 with the Department of Defense.

11. Transmissions authorized herein must comply with coordination agreements reached between the United Kingdom and other Administrations, including all coordination agreements reached between the United Kingdom and the United States.
12. SES Government Solutions may not receive transmissions from O3b's NGSO FSS system in the 17.8-18.6 and 18.8-19.3 GHz frequency bands (space-to-Earth) until O3b has completed coordination of its NGSO FSS system with all Federal FSS systems in the 17.8-18.6 and 18.8-19.3 GHz frequency bands under 47 C.F.R. § 2.106, Footnote US334.
13. This STA is limited to operations associated with testing, satellite monitoring, and customer demonstrations purpose. SES Government Solutions may not provide any commercial service under this STA.
14. In the event that there is a report of interference, SES Government Solutions must immediately terminate transmissions and notify the FCC in writing.
15. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely at SES Government Solutions' own risk.
16. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

SES Government Solutions (SES-GS) seeks FCC special temporary authority (STA) for 30 days commencing on December 2, 2013, to operate an earth station in Bristow, Virginia, with the O3b U. K.-licensed non-geostationary Ka-band satellite system for testing and demonstration purposes only. SES-GS has also filed a request for a 180-day STA at this location and incorporates by reference the supporting materials provided with that request. See File No. SES-STA-INTR2013-02204.
