Re: Timing update for Special Temporary Authority for CODA Lab earth station in San Diego, California
File No. SES-STA-20131228-01209

Dear Ms. Dortch:

On December 23, 2013, O3b Limited ("O3b") submitted an application for Special Temporary Authority ("STA") to operate an earth station in San Diego, California, for testing and demonstration purposes only, for a 30-day period, beginning January 31, 2014.

After the STA request was filed, O3b updated its schedule for tests and demonstrations (along with the schedule for other system and customer testing worldwide) during the months before the launch of the next four satellites in O3b's constellation in 2014. In light of this new schedule, the January 31, 2014 start date that O3b requested for its STA has been changed. In lieu of the original 30-day STA term, O3b respectfully requests that its STA cover the 30-day period commencing on May 1, 2014.

Please direct any questions to the undersigned.

Sincerely,

/s/ Joslyn Read
