12. Description

This is the first and only independent satellite truck to be in northern Nevada to cover breaking news and events like the recent school shooting and fires. I have had this truck for over a year of retrofitting and repair it is now ready for testing and service to my community. It would save on other trucks traveling hundreds of miles for news events. I would be very thankful if I can get this temporary so that I can provide a more timely service to this area.
